PROGRAM OBJECTIVES

Managing Loaner Instrumentation

Rose Seavey

RN,BS,MBA,CNOR,CRCST,CSPDT

Outline: This presentation will cover a team approach to solving a growing problem with loaner instrumentation. We will reference the joint position paper on *Managing Loaner Instrumentation* created by ASHCSP and IAHCSP as well as AORN and AAMI current recommended practices on loaners. We will discuss controls that should be in place to ensure instruments and implants are effectively managed.

Objectives

1. Identify the necessary steps for the careful management and control of loaned instruments and/or implants.
2. Discuss why gaining cooperation and using a team approach is necessary for a successful loaner instrumentation program.
3. Review necessary documentation and monitoring that should take place for loaner instrumentation.

S.P.D. What do you want to know?

Edward Casey & Troy Cambone

Objectives:

1. Unique Session dealing with the hottest S.P.D. topics Write down your top three urgent questions and have them ready for our expert panel. The twist is that most questions will be answered by some true "experts"..... YOU! In the audience

Ladders to Personal and Professional Success: One Step At a Time

Rose Seavey

RN,BS,MBA,CNOR,CRCST,CSPDT

Outline: Whether you are looking to move up in your current profession, wanting to change to another career, or make some personal improvements in your life, this presentation can help you be successful. We will look at ways to achieve, keep and enjoy success in your personal and professional life. You will discover how making better choices can lead you on the road to success. We will explore how being in charge of your decisions can help you become the successful person you want to be at home or at work.

Objectives:

1. Discuss how making the right choice can help you achieve results than can make you successful personally and professionally.

2. Explore specific character, action and investment choices that we make daily.
3. Explain the attributes necessary for leadership.

Attitude is Everything!

Damien S. Berg

Objective: To give the audience a unique perspective of managing in a health care environment which not only provides challenges with communication, logistics and education, but doing so while reacting to incoming mortar attacks, 130 degree heat, little to no sleep and some of the worst things I have seen or experienced in my life.

Returning home to America and jumping right into a job as the supervisor of a new sterile processing department in a new trauma hospital. What lessons did I learn and what could I hope to share with my employees and peers. You will soon find out.

Topics

- Attitude is everything
- Lean on the strong and learn from the weak
- Don't hold your worth to close to your position
- Stay flexible, Stay Current
- So you think your job is safe
- What happens when your best day becomes your worst
- Bring it out in others
- Lessons learned
